Popis Spooky Cyclops Double Spring Rider manufactured with high-density polyethylene for playgrounds and public play areas. EN 1176 Certified.

The Spooky Cyclops seesaw will keep its eye on the children who dare to ride on this amusing spring rider for children's play areas. Manufactured according to the safety requirements and test methods of UNE EN 1176 standard, it is able to watch over both seats with its single eye. The solid painted galvanized steel frame together with the use of high-density polyethylene panels make it ideal for parks for public use.
